thank you for taking the time to read this book this book christian life coaching the intersection of faith psychology and life coaching and overcoming adhd and ocd has been a labor of love for me it represents my metaphorical personal journey of overcoming my mental disabilities by integrating christianity psychology and life coaching as holistic resources it was an exploration of intellectual curiosity spiritual faith and desire to unify these three areas of knowledge for practical use for christians for much too long these three areas of expertise developed separately and it took recent academia to explore these themes as an interdisciplinary approach this book is for christians and non christians to use as a guide explanation and practical tool to overcome adhd and ocd specifically and generally to achieve personal transformation and growth as humans living our time in this world as material beings hopefully the discussion will be persuasive for both christians and the secular world of cognitive behavioral psychology i am not an expert in christian theology nor in pastoral counseling nor a clinical psychologist nor a professional psychiatrist what i know is what happened to me on my personal journey to overcome adhd

and ocd i was seeking intellectual justification for what worked for me i hope this will be useful for the reader of my book however this theory or life coaching practice has not been tested scientifically nor in any quantifiable experiments we leave this task for further research i am a practicing lawyer with over 25 years of experience in private law practice in canada and as in house legal counsel for hong kong companies i am a christian and have been since 2011 my interest slowly moved in the direction of life coaching as an outlet for my frustrations as a lawyer we tend to give legal and business advice in a rational manner however i saw that myself clients and corporate stakeholders that i dealt with needed something special and not necessarily legal solutions for their business and personal problems this solution is related to their holistic personalities which became clearly visible under stress and personal conflict i knew that lawyers by training were not equipped nor should they be with life coaching tools from a christin perspective thus i thought the answer would be to categorize it as a new discipline or profession called christian life coaching in my exploration and pursuit of writing this book i can across the idea of using artificial intelligence ai to research and seek answers to our questions on christian life coaching and how ai can be used as a tool to assist clients i started to use the poe app readily available in app stores to assist in the writing of this book much of the content is taken from my kitlulifebot on poe i created this bot from the perspective of a christian life coach reflecting some of the principles described in this book please feel free to explore on your own in fact the attached appendices are a product of such questions directed to kitlulifebot and is useful for common questions to ask a christian life coach i hope this book will transform your life make you a stronger christian and help you to deal with bad habits learned in your past this is a lot to expect so be patient and i hope the journey is worth the effort i know this book has helped me my colleagues christian brothers secular friends and clients as a christian life coach i have observed that the intersection of faith psychology and life coaching holds immense potential for transformation and healing through the combination of these three elements individuals can experience holistic growth and align their lives with god s purpose firstly it is crucial to acknowledge that christian life coaching is not limited to a denominational categorization but encompasses all those who profess their faith in god jesus and the holy spirit this inclusive approach allows for a diverse range of individuals to benefit from the guidance and support offered by a christian life coach one of the key aspects emphasized in christian life coaching is the centrality of god by making god the focus of coaching individuals are guided towards aligning their lives with his will and experiencing his transformative power this approach acknowledges that human goals dreams aspirations and gifts often come from god and can be aligned with his purpose moreover christian life coaching recognizes the importance of integrating psychological insights with biblical teachings this integration allows individuals to gain a deeper understanding of themselves navigate their emotions and develop effective coping mechanisms by critically evaluating and integrating psychological approaches with biblical principles individuals can find healing and transformation creating a safe and non judgmental space is also essential in christian life coaching by actively listening empathizing and offering support based on both psychological insights and biblical principles life coaches can facilitate individuals inner exploration and healing journey encouraging clients to rely on the power of prayer seek solace in scripture and incorporate spiritual practices further enhances their healing process as christian life coaches we strive to model authenticity and transparency

in our own faith journey sharing our personal experiences of relying on god s guidance and seeking his healing can inspire and encourage clients to deepen their own faith and trust in god in conclusion christian life coaching at the intersection of faith psychology and life coaching offers a transformative and holistic approach to personal growth by integrating psychological insights with biblical principles relying on prayer and scripture and creating a safe space for individuals to explore their inner struggles christian life coaches guide clients towards true healing and transformation this unique combination enables individuals to align their lives with god s purpose and experience the abundant life he desires for them also i would like to briefly describe what this book does not do for the general reader mostly this is the author s personal narrative and journey of overcoming mental disabilities through the integration of christianity psychology and life coaching hopefully my experiences and insights will help others on their own transformational paths the purpose of this book is not to provide scientific evidence and research to support the theories and practices discussed in the book we will leave this task to others who are more capable than me in this area of expertise 13
