Georgios Panzaris John M. Kistler Stephen Beale Bryan Pfaffenberger Stephen Eckett*

this book about america s romance with computer communication looks at the internet not as a harbinger of the future or the next big thing but as an expression of the times
streeter demonstrates that our ideas about what connected computers are for have been in constant flux since their invention in the 1950s they were imagined as the means for
fighting nuclear wars in the 1960s as systems for bringing mathematical certainty to the messy complexity of social life in the 1970s as countercultural playgrounds in the 1980s as
an icon for what s good about free markets in the 1990s as a new frontier to be conquered and by the late 1990s as the transcendence of markets in an anarchist open source utopia

the net effect teases out how culture has influenced the construction of the internet and how the structure of the internet has played a role in cultures of social and political thought
