building on its origins at a seminar in oslo organized by two of the editors this book combines classic texts of nordic ecophilosophy and the original contributions of those influenced by this tradition to present the view that critical realism is indeed a worthy intellectual tradition to carry forward and further develop the work of the founders of nordic ecophilosophy it was clear at the seminar that there was a promising convergence of interests and themes in the two approaches while at the same time within the nordic ecophilosophical tradition there was appreciation of the capacity of critical realism with its provision of a robust philosophical ontology and generation of totalizing immanent critiques of western philosophy to provide an expansive and secure home for the development of ecophilosophical work generally if there is a single overarching theme of critical realist philosophy it surely must be that of the unity of theory and practice which bhaskar following hegel has also called seriousness this makes the applicability relevance and actionability of critical realism key considerations for critical realists there can be no doubt that this concern was shared fully by the nordic ecophilosophers and this quality of seriousness is a striking feature of the nordic contributions presented in this book

no matter wherestudents lives lead after graduation one of the most essential tools we can teach them is how to comprehend analyze and respond to arguments students need to know how writers and speakers choices are shaped by elements of the rhetorical situation including audience occasion and

purpose in teaching arguments rhetorical comprehension critique and response jennifer fletcher provides teachers with engaging classroom activities writing prompts graphic organizers and student samples to help students at all levels read write listen speak and think rhetorically fletcher believes that with appropriate scaffolding and encouragement all students can learn a rhetorical approach to argument and gain access to rigorous academic content teaching arguments opens the door and helps them pay closer attention to the acts of meaning around them to notice persuasive strategies that might not be apparent at first glance when we analyze and develop arguments we have to consider more than just the printed words on the page we have to evaluate multiple perspectives the tension between belief and doubt the interplay of reason character and emotion the dynamics of occasion audience and purpose and how our own identities shape what we read and write rhetoric teaches us how to do these things teaching arguments will help students learn to move beyond a superficial response to texts so they can analyze and craft sophisticated persuasive arguments a major cornerstone for being not just college and career ready but ready for the challenges of the world

no detailed description available for problems in argument analysis and evaluation

rendered from the 11th edition of copl cohen introduction to logic the most respected introductory logic book on the market this concise version presents a simplified yet rigorous introduction to the study of logic it covers all major topics and approaches using a three part organization that outlines specific topics under logic and language deduction and induction for individuals intrigued by the formal study of logic

this book centers on the idea that some verbs and other argument structure constructions have an inherently different propensity to realize lexically unfamiliar arguments independently of lexical semantic meaning this notion is explored both qualitatively using selected examples and quantitatively using large amounts of corpus data in both cases primarily from english and german

a fortiori logic innovations history and assessments by avi sion is a wide ranging and in depth study of a fortiori reasoning comprising a great many new theoretical insights into such argument a history of its use and discussion from antiquity to the present day and critical analyses of the main attempts at its elucidation its purpose is nothing less than to lay the foundations for a new branch of logic and greatly develop it and thus to once and for all dispel the many fallacious ideas circulating regarding the nature of a fortiori reasoning
