*Spaces for Feeling* explores how English and Scottish people experienced sociabilities and socialities from 1650 to 1850 and investigates their operation through emotional practices and particular spaces the collection highlights the forms practices and memberships of these varied spaces for feeling in this two hundred year period and charts the shifting conceptualisations of emotions that underpinned them the authors employ historical literary and visual history approaches to analyse a series of literary and art works emerging forms of print media such as pamphlet propaganda newspapers and periodicals and familial and personal sources such as letters in order to tease out how particular communities were shaped and cohered through distinct emotional practices in specific spaces of feeling this collection studies the function of emotions in group formations in Britain during a period that has attracted widespread scholarly interest in the creation and meaning of sociabilities in particular from clubs and societies to families and households essays here examine how emotional practices could sustain particular associations create new social communities and disrupt the capacity of a specific cohort to operate successfully this timely collection will be essential reading for students and scholars of the history of emotions

this is the first major study in English of the Queens of the Ottonian Dynasty 919-1024 the Ottonians were a family from Saxony who are often regarded as the founders of the medieval German Kingdom they were the most successful of all the dynasties to emerge from the wreckage of the pan-European Carolingian Empire after it disintegrated in 888 ruling as kings and emperors in Germany and Italy and exerting indirect hegemony in France and in Eastern Europe it has long been noted by historians that Ottonian Queens were peculiarly powerful indeed among the most powerful of the entire Middle Ages their reputations particularly those of the empresses Theophanu d. 991 and Adelheid d. 999 have been commemorated for a thousand years in art literature and opera but while the exceptional status of the Ottonian Queens is well appreciated it has not been fully explained *Ottonian Queenship* offers an original interpretation of Ottonian Queenship through a study of the sources for the dynasty's six queens and seeks to explain it as a phenomenon with a beginning middle and end the argument is that Ottonian Queenship has to be understood as a feature in a broader historical landscape and that its history is intimately connected with the unfolding story of the royal dynasty as a whole Simon Maclean therefore interprets the spectacular status of Ottonian royal women not as a matter of extraordinary individual personalities but as a distinctive product of the post-Carolingian era in which the certainties of the ninth century were breaking down amidst overlapping struggles for elite family power royal legitimacy and territory queenship provides a thread which takes us through the complicated story of a crucial century in Europe's creation and helps explain how new ideas of order were constructed from the debris of the past

a sharp and lively text that covers issues in depth but not to the point that they become inaccessible to beginning students an introduction to architectural theory is the first narrative history of this period charting the veritable revolution in architectural thinking that has taken

place as well as the implications of this intellectual upheaval the first comprehensive and critical history of architectural theory over the last fifty years surveys the intellectual history of architecture since 1968 including criticisms of high modernism the rise of postmodern and poststructural theory critical regionalism and tectonics offers a comprehensive overview of the significant changes that architectural thinking has undergone in the past fifteen years includes an analysis of where architecture stands and where it will likely move in the coming years
