the image of the architect is undeniably gendered while the male architect might be celebrated as the ideal man in hollywood romantic comedies blessed with practicality and creativity in equal measure to impeccable taste and an enviable lifestyle the image of the woman architect is not so clear cut while women have been practicing and excelling in architecture for more than a hundred years their professional identity as constructed in the media is complex and sometimes contradictory this book explores the working lives and aspirations of women in architectural practice but more than this it explores how popular media newspapers magazines and websites serve to define and describe who a woman architect should be what she should look like and how she should behave looking further into the way that professional characteristics are reinforced through awards like the pritzker prize the book demonstrates how idealised characteristics such as sensitivity and vision are seen to be neither entirely masculine nor feminine but instead a

complex hybrid owing much to historic concepts of genius drawing on history sociology media analysis and feminist theories of architectural practice the book will be of interest to all of those who seek to better understand the image and identity of the architect this book was published as a double special issue of architectural theory review

rooted in feminist political thought she city illuminates how gender shapes our urban spaces and city design through three sections resisting sexist cities designing feminist cities and prioritizing safer cities kalms examines barriers to women s public participation and focuses on the practical strategies policies and actions to overcome them addressing significant themes such as violence against women and gender sensitive design she city not only provides direction for practitioners but also inspires confidence to pursue new paths towards women centered urban environments this book is an essential resource for architects urban designers planners and the plethora of built environment specialists committed to building cities that truly meet the diverse needs of women and girls

the speed and scale of urbanisation in india is unprecedented almost anywhere in the world and has tremendous global implications the religious influence on the urban experience has resonances for all aspects of urban sustainability in india and yet it remains a blind spot while articulating sustainable urban policy this book explores the historical and on going influence of religion on urban planning design space utilisation urban identities and communities it argues that the conceptual and empirical approaches to planning sustainable cities in india need to be developed out of analytical concepts that define local sense of place and identity examining how hindu religious heritage beliefs and religiously influenced planning practices have impacted on sustainable urbanisation development in jaipur and indian cities in general the book identifies the challenges and opportunities that ritualistic and belief resources pose for sustainability it focuses on three key aspects spatial segregation and ghettoisation gender inclusive urban development and the nexus between religion nature and urban development this cutting edge book is one of the first case studies linking hindu religion heritage urban development women and the environment in a way that responds to the realities of indian cities it opens up discussion on the nexus of religion and development drawing out insightful policy implications for the sustainable urban planning of many cities in india and elsewhere in south asia and the developing world
