in this profound and yet accessible book john kekes discusses moral wisdom a virtue essential to living a morally good and personally satisfying life he advances a broad nontechnical argument that considers the adversities inherent in the human condition and assists in the achievement of good lives the possession of moral wisdom kekes asserts is a matter of degree more of it makes lives better less makes them worse exactly what is moral wisdom however and how should it be sought ancient greek and medieval christian philosophers were centrally concerned with it by contrast modern western sensibility doubts the existence of a moral order in reality and because we doubt it and have developed no alternatives we have grown dubious about the traditional idea of wisdom kekes returns to the classical greek sources of western philosophy to argue for the contemporary significance of moral wisdom he develops a proposal that is eudaimonistic secular anthropocentric pluralistic individualistic and agonistic he understands moral

wisdom as focusing on the human effort to create many different forms of good lives although the approach is aristotelian the author concentrates on formulating and defending a contemporary moral ideal the importance of this ideal he shows lies in increasing our ability to cope with life s adversities by improving our judgment in chapters on moral imagination self knowledge and moral depth kekes calls attention to aspects of our inner life that have been neglected because of our cultural inattention to moral wisdom he discusses these inner processes through the tragedies of sophocles which can inspire us with their enduring moral significance and help us to understand the importance of moral wisdom to living a good life

desiring the good defends a novel and distinctive approach in ethics that is inspired by ancient philosophy ethics according to this approach starts from one question and its most immediate answer what is the good for human beings a well going human life ethics thus conceived is broader than moral philosophy it includes a range of topics in psychology and metaphysics plato s philebus is the ancestor of this approach its first premise defended in book i of aristotle s nicomachean ethics is that the final agential good is the good human life though aristotle introduces this premise while analyzing human activities it is absent from approaches in the theory of action that self identify as aristotelian this absence vogt argues is a deep and far reaching mistake one that can be traced back to elizabeth anscombe s influential proposals and yet the book is anscombian in spirit it engages with ancient texts in order to contribute to philosophy today and it takes questions about the human mind to be prior to and relevant to substantive normative matters in this spirit desiring the good puts forward a new version of the guise of the good namely that desire to have one s life go well shapes and sustains mid and small scale motivations a theory of good human lives it is argued must make room for a plurality of good lives along these lines the book lays out a non relativist version of protagoras s measure doctrine and defends a new kind of realism about good human lives

do black pride and black prejudice come hand in hand does taking pride in being black encourage the rejection of a common bond with other americans in this groundbreaking study two leading social scientists mount a challenge to those who would answer yes paul sniderman and thomas piazza probe these questions in the only way possible asking black americans themselves to share their thoughts about each other america and other americans writing in a strikingly transparent style they open a new window on the ideas and values of real individuals who make up the black community in america today contrary to the rhetoric of some black leaders sniderman and piazza show that african americans overwhelmingly reject racial separatism and embrace a common framework culture and identity with other americans although the authors find that levels of anti semitism are notably higher among black americans than among white americans they demonstrate that taking pride in being black does not encourage blacks to be more suspicious or intolerant of others who are not black the higher levels of anti semitism are instead associated with a gallery of oversimplified and accusatory ideas including a popularized afrocentrism and charges of vast conspiracies that have won substantial support in the black community readers of this book will come away with an understanding of how african americans while insistent on winning racial justice are deeply committed to the values of the american ethos and their identity as americans

this book delves into a broad range of hitherto unresolved issues related to zhuangzi s

ethics which include but are not limited to the fundamental question of whether zhuangzi should be regarded as a moralist in the ordinary sense and what zhuangzi's views on topics such as equality moral relativism good life intersubjective relations and social harmony really are the twelve contributors to this book deliberate on these issues in six debates centering on recent influential publications in the field in each debate the relevant publications will be first challenged by their critic and then defended by their author through which different and competing interpretations of zhuangzi's ethical themes will directly confront each other these author meets critic debates will not only reflect what is currently at stake in discussing zhuangzi's ethics but also engage and enrich the state of the field today this volume serves as a good companion to scholars as well as graduate level students who are interested in gaining philosophical and ethical insights from zhuangzi and chinese philosophy in general

the *summa theologica* is the best known work of italian philosopher scholar and dominican friar saint thomas aquinas 1225 1274 widely considered the catholic church's greatest theologian famously consulted immediately after the bible on religious questions at the council of trent aquinas's masterpiece has been considered a summary of official church philosophy ever since aquinas considers approximately 10 000 questions on church doctrine covering the roles and nature of god man and jesus then lays out objections to church teachings and systematically confronts each using biblical verses theologians and philosophers to bolster his arguments in volume ii aquinas addresses happiness good and evil love and hatred hope and despair anger virtue sin and grace and much more this massive work of scholarship spanning five volumes addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy religious historians and serious students of catholic thought

in this revolutionary self help guide two beloved native american wellness activists offer wisdom for achieving spiritual physical and emotional wellbeing rooted in indigenous ancestral knowledge when wellness teachers and husband wife duo chelsey luger and thosh collins founded their indigenous wellness initiative well for culture they extended an invitation to all to honor their whole self through native wellness philosophies and practices in reclaiming this ancient wisdom for health and wellbeing drawing from traditions spanning multiple tribes they developed the seven circles a holistic model for modern living rooted in timeless teachings from their ancestors luger and collins have introduced this universally adaptable template for living well to ivy league universities and corporations like nike adidas and google and now make it available to everyone in this wise guide the seven circles model comprises interconnected circles that keep all aspects of our lives in balance functioning in harmony with one another they are food movement sleep ceremony sacred space land community in the seven circles luger and collins share intimate stories from their life journeys growing up in tribal communities from the indigenous tradition of staying active and spiritually centered through running and dance to the universal indigenous emphasis on a light filled minimalist home to create sacred space along the way luger and collins invite readers to both adapt these teachings to their lives as well as do so without appropriating and erasing the original context representing a critical new ethos for the wellness space each chapter closes with practical advice on how to engage with the teachings as well as wisdom for keeping that particular circle in

harmony with the others with warmth and generosity and 75 atmospheric photographs by collins throughout the seven circles teaches us how to connect with nature with our community and with ourselves and to integrate ancient indigenous philosophies of health and wellbeing into our own lives to find healing and balance
